COLLECTION

SURFACES SHAPE OUR ECOSYSTEM INTO A LIVEABLE ONE.

Since decades ago, when we first established a name for ourselves in building material industry producing top-notch goods and services, our company has come a long way. coalesces artistry and innovation to produce exquisitely crafted SPC flooring solutions that look and feel authentic. Our name, which translates from French as "superior, extraordinary, and precious," perfectly encapsulates who we are and what we stand for. By utilising cutting-edge technology and unmatched expertise, we strive to offer our customers the finest flooring solutions. We offer sustainable flooring solutions with excellent quality and long-lasting durability, backed by the substantial knowledge and experience we have gained through our prior endeavours.

SURFACES ARE MOULDED WITH THE FORCE OF NATURE.

Diligence is an inherent feature of . We strive to deliver a melange of strength, craftsmanship, and size that delivers function benefits as per the requirements of Spaces. Our manufacturing facilities employ the best technology from world leaders in SPC flooring manufacturing equipment. Our surfaces deliver the impact and the experience of pizazz. The ridged core SPC floors exhibit is one of its primary qualities on account of the state-of-the-art Patented interlocking technology made with the precision of German engineering. Securing the spaces with the multiple layered robust product composition. Our R&D facilities already have a foot firmly planted in tomorrow, so that we are technically empowered.

The technical specifications of SPC (Stone Polymer Composite) flooring are exceptional, combining endurance and creativity. Its strong core structure is made of a unique composite product which ensures exceptional dimensional stability. This material is resistant to water, scratches, stains and fire making it an excellent flooring alternative for a variety of conditions.

The presence of our state of art laboratory within our manufacturing facility demonstrates our commitment to quality. Every batch of manufacturing is extensively tested here in accordance with the industry standards. This careful process guarantees that each product meets our exacting quality standards, ensuring the dependability and performance of our offerings. We not only uphold the highest standards by maintaining our in-house testing lab, but we also provide our customers with the assurance of consistent and outstanding quality in every batch of SPC flooring we create.

Technical Performances

Test Parameters	Standard	Specification / Criteria	Result
Dimension Stability	ISO 23999	< 0.10%	Pass
Curling	ISO 23999	< 1 mm	Pass
Micro scratch resistant	EN 16094	> 25000 Cycle (4N Load)	Pass
Residual Indentation	ACTME 1914	< 0.10mm	Pass
Shore D hardness	ASTM D 2240	> 15 to < 70 HD	Pass
Scratch Resistant		> 6 N	Pass
Abrasion Resistant	EN 13329	AC4 (> 4000 cycle)	Pass
Pill strength	EN ISO 24345	> 50 N / 50 mm	Pass
Locking Strength	ISO 24334	> 250 N / 100 mm	Pass
Density	ASTM D 792	1.95 to 2.05 g/cm ²	Pass
Castor Chair test	ISO 4918	25000 Cycle (90 kg load)	Pass
Large Ball Impact test	EN 438	1600 mm Height (320 gm load)	Pass
